PROFESSIONEL PROFILE

PhD candidate in Applied Statistics with a strong background in econometrics and quantitative analysis. I have experience working with large datasets using Python and R, including data cleaning, integration, and statistical modeling. Through my academic and applied work, I have developed an interest in using data to address real-world challenges, particularly in development and public policy. I am especially interested in impact evaluation and in contributing to data-driven decision-making in international development contexts.

SKILLS

Computing

PowerBI, C++, Python, R, SAS, SQL, STATA, C, SPSS, SPAD, Access

Software

Latex, Beamer, Microsoft Word Office, Excel, PowerPoint

Soft

- Working in group
- Communication
- Resilience in demanding contexts

AREAS OF EXPERTISE

- Data analysis and statistical consulting;
- Design of Bayesian models;
- Econometrics and Economics;
- Planing;
- Impact modeling;
- Random clustering;
- Sampling theory and data-driven policy analysis;
- Strong adaptability to programming and software understanding.

PROFESSIONAL EXPERIENCE

Intership

Customer Base Management Service, Orange Cameroon 
08/2019 – 11/2019 | Douala, Cameroun

Final-year thesis for the ISE diploma "**Loyalty program :
Impact on consumption behavior and churn**"

ISSEA, Cameroon

01/2020 – 05/2020 | Yaounde Cameroon

Academic thesis on spatial analysis of HIV/AIDS transmission in Africa

Teaching assistant

Université de Montreal

09/2021 – Present | Montreal, Canada

Differential calculus, Linear algebra, vector linear algebra, introduction in statistical concepts and methods, linear regression, statistics for social sciences, sampling theory.

Lecturer

Université de Montreal

09/2022 – 06/2024 | Montreal, Canada

Probability and Statistics, Statistical concepts and methods

Technical assistant

Université de Montreal

09/2022 – Present | Montreal, Canada

Support exams for Students with disabilities

CONFERENCES

International Society for Bayesian Analysis (ISBA) conference

ISBA

06/2022 | Montreal, Canada

Volunteer

EDUCATION

PhD Candidate in Applied Statistics

Université de Montreal

09/2020 – Present | Montreal, Canada

Research on semi-parametric hierarchical Bayesian spatio-temporal models for prediction, spatial relationship, random clustering in high-dimensional with mixed data using R, python and C++ software.

Statistical Economist Engineer

Sub-regional institute for statistic and applied economics (ISSEA)

09/2017 – 08/2020 | Yaounde, Cameroon

Honours in Analysis Mathematics

University of Dschang

10/2016 – 06/2017 | Dschang, Cameroon

Bachelor's in Applied Mathematics

University of Dschang

10/2013 – 06/2016 | Dschang, Cameroon

Leaving school certificate

Bilingual High school of Dschang

06/2013 | Dschang, Cameroon

High secondary school Diploma

LANGUAGES

French

English

pan-Quebec colloquium

Institute of Mathematical Sciences

05/2023 – 05/2024 | Sherbrooke, Canada

Participant

11th Canadian statistics student conference

Statistical Society of Canada

05/2023 | Ottawa, Canada

Participant

Francophone interfaculty colloquium on Biostatistics research (CFIRD) colloquium

CFRID

05/2024 – 08/2025 | Montreal, Canada

CO-organizer

Ottawa mathematics and statistics conferences

05/2024 – 05/2025 | Ottawa, Canada

Speaker

Annual International conference, Women in mathematics and Interaction

Mathematical research Center (CRM)

06/2025 | Montreal, Canada

Co-organizer and speaker

Symposium in Biostatistic and epidemiology,

Public health school, Université de Montréal

05/2026 – 05/2026 | Montreal, Canada

Co-organizer

Sixteenth Montreal Industrial Problem Solving Workshop Date

HEC Montreal

06/2026 – 06//2025 | Montreal, Canada

Air freight forecasting using clusters

HOBBIES

hiking 

Dancing

Afrobeats, Salsa, Bachata

Volunteering

Reading and watching documentaries

Cooking
